TRUE VINTAGE REVIVAL
HANDMADE IN JAPAN

TVR® new comfort fit with 6mm Japanese Zylonite

Oval rivets made using rare SPM (Sun Platinum Metal)

Consistent, smooth frame surface

Wide library temples tapering to flared tips

7-barrel hinges

Metal core for extra strength

TVR®523 Style Vintage Collection

TVR®523 is America's most-wanted eyeglasses design in the 1950s and is based on the Vintage SRO Styl-rite Optics 820 model. The 50s was a period of optimism and with it came a dapper eye frame accentuating a universal shape that appealed to a mass audience. Coveted by the famous Woody Allen, Johnny Depp and Andy Warhol, TVR®523 features wide library temples that taper to the flared tips.

The unique feature of the tips is the curvature and finishing at the edge that provides stability when it's put on the face – it doesn't feel heavy on the front and offers ultimate comfort with a revolutionary 6mm Japanese zylonite to boot; the first time TVR® is using this fine material. The model also follows the original SRO820 blueprint with 7-barrel hinges, keyhole bridge, signature oval rivets and miter cutting carried out meticulously by expert master craftsmen in Sabae, Japan. Iconic colours including Demi Amber, Brown Combo and Crystal are selected to accentuate this vintage collection.

TVR®523 retains all the original DNA of the 1950 most sought-after design using exceptionally rare mould to recreate a shape favoured by illustrious icon of the century.

Genuine Leather Case

Master Craftsman **TAMAMURA SATOMI**

The 67-year-old master craftsman began making handmade SPM and Celluloid frames more than 50 years ago. After recovering from some health issues a decade ago, Tamamura Satomi makes a comeback with his impeccable intricate detailing works.
